Bachelor of Computer Applications

Catalyst college, Patna

2022 - 2025

---

## Skills

**Basic:** React, SQL

**Intermediate:** Python, MongoDB, JavaScript, DSA

**Skilled:** Java, C

## Projects

### Vaani AI:

Vaani AI is a smart AI-powered virtual assistant developed using Python Flask, MongoDB, JavaScript, HTML, CSS, OpenAI API, Weather API, Speech Recognition API for voice input, and Speech Synthesis API for voice output.

The application allows users to interact using both text and voice commands.

### Online food ordering system:

The food ordering system uses **HTML** and **CSS** to create an attractive and responsive user interface. **JavaScript** is used to add interactive features such as form validation and cart updates. The backend is developed using **Java** to handle user authentication, order processing, and business logic. **MySQL** is used to store customer details, menu items, orders, and payment information securely.
